Summary

Frontend Developer with **3+ years of experience** building production applications across e-commerce, enterprise SaaS. Strong in React.js, Next.js, TypeScript, Node.js, Express.js, REST APIs, GraphQL, and MongoDB, with experience delivering end-to-end features, authentication/RBAC, performance optimization, and production troubleshooting.

Experience

NeoSOFT Technologies June 2025 – Present

Frontend Developer (React.js) — Clients: Infosys, Club Mahindra *Pune, India*

- Built responsive UI enhancements and content updates for the Club Mahindra website using **React.js** and **Next.js**, leveraging **AI assisted development** for faster debugging and refactoring.
- Migrated multiple sections of the **Infosys** corporate website (Newsroom, Events, Press Releases, and content pages) from Bootstrap 3 to Bootstrap 5, ensuring responsive and consistent layouts across devices.
- Worked on backend development using **Node.js** and **Express.js**, implementing REST APIs and integrating frontend applications with backend services

Bitbeast Mar. 2024 – Jun. 2025

Frontend Developer (React.js) *Ahmedabad, India*

- Led the redevelopment of an RCS messaging web application using React.js, Next.js, and Ant Design from Figma designs, improving usability and consistency, and boosting **page load speed** with **code splitting**, memoization, and **lazy loading**.
- Implemented OTP authentication using **React.js**, Ant Design, **Node.js**, and Express.js with REST API integration, using **AI coding tools** for boilerplate and debugging.

AdmitKard Aug. 2023 – Feb. 2024

SDE Intern (Frontend) *Noida, India*

- Developed an in-house web application using **Next.js** and **Material UI**, improving UI performance and visual appeal.
- Upgraded an internal app used by **250+ employees**, improving UI performance and usability.
- Implemented **Access Control Lists (ACLs)** to manage role-based user permissions.
- Added animations to the login page using Next.js and Material UI, improving user satisfaction.

Technical Skills
